

LASERZONE
BRISBANE

PLAYERS CODE OF CONDUCT

Laserzone Brisbane Management has a higher expectation of behaviour for the regular Laser Sporting Players at the site. The Players Code of Conduct is a set of guidelines for the behaviour expected of our regular Laser Sporting players. This code applies to League players as well as the more advanced regional and national level players, and applies in addition to the general play rules and conditions of entry to the site.

Laserzone Brisbane Management will take action to educate players who are in breach of this code, and may, in more serious circumstances, remove players from the site for a period of time that they feel fits the severity of the breach. Here is a summarised version of the code:

Be Safe

Play Fair

Be Humble

Be Welcoming

Be Respectful

Team First

BEHAVIOURS

In order to provide greater clarity around what each of the above items means, we have included some examples of behaviours that reflect the items in the code. These behaviours all relate to actions within the site, in a social context or on social media. These examples are not an exhaustive list but are provided to give some guidance as to what could constitute a breach of the code.

BE SAFE

- Avoid dangerous movements and fast running that could put yourself or other people at risk
- Do not wear any clothing or attire that could become a trip hazard or safety concern such as dangly jewellery or excessively loose clothing
- Protect the mental health of other patrons by being mindful of comments made during games, within the venue, or outside the venue on social media or during social outings with other players
- Any violence, whether physical or verbal is considered serious, and will result in a banning from Laserzone events for a period of time that will be decided by Laserzone Management
- The use of alcohol or drugs during, or prior to, participation at Laserzone is strictly prohibited

PLAY FAIR

- Players will attempt to behave in a sportsmanlike way in all situations
- Players will attempt to follow game rules in all situations

BE HUMBLE

- Players will be humble winners and gracious losers

BE WELCOMING

- Players will behave in a way which supports new players to feel welcome in the Laserzone Laser Sporting scene
- Players will avoid the creation of social clicks that set out to exclude or alienate a player or group of players

BE RESPECTFUL

- Players will not discriminate against any other person, particularly those that share a different gender identification, sexual preference, age, religion or political view
- Players will not talk negatively about Laserzone Brisbane, its equipment, the arena, other players or the management of the venue

TEAM FIRST

- When playing in a team environment, players will do their best to play with the teams goals in mind, before the promotion of their own individual interests
- Players who represent the site at a regional or national level, will do their best to take a 'squad first' approach. This means they will support decisions made by senior players and management that prioritise the long-term growth of the sport, even if these decisions do not align with the personal preference of the individual
